King Air Day at Banyan

Fort Lauderdale, FL – Banyan Air Service at Fort Lauderdale Executive Airport (FXE) will be hosting King Air Day on Friday, October 29, 2010. This event is for owners and operators of King Airs to learn more about avionics, PT-6 engines, winglets, and other upgrades that will increase their flying pleasure and also the value of their aircraft.

Seminars will include cabin networking and communications, Raisbeck modifications, Garmin upgrades, Blackhawk Engine upgrades, and BLR's Super King Air Winglet System.

In addition to seminars, tours of the Banyan facility will be provided, as well as breakfast and lunch. The event starts at 8:00 am – 2:00 pm and registration is highly suggested. For a detailed agenda, or to register for the event, visit www.banyanair.com/kingairday.

PRESS RELEASE

Banyan Air Service (FXE) is a Hawker Beechcraft factory authorized parts and service center and specializes in King Air inspections and modifications. Banyan's aircraft maintenance department is both an FAA and EASA approved repair station, and holds Venezuela, Argentina, and Brazilian government maintenance approvals. Banyan caters to domestic and international aircraft owners, corporations and governmental agencies. In addition to King Air maintenance, Banyan offers avionics upgrades, 24-hour FBO services, aircraft management and sales, Hangar63 (Banyan's Aviation Store) and Jet Runway Café.
